AVP036H (gs1000) GPS 1080P Car dvr + gps logger+G- sensor ambarella processor

Camera SPEC:
Video recording quality: to choose the resolution of video recording: 1920x1080P30, 1440x1080P30, 1280x720P30, 848x480P60, 848x480P30.
Circulating video recording: to set or shut the circulating video recording, in the status of circulating video recording, when the capacity of TF card is full, the previous content shall be covered automatically.
TV out：NTSC/PAL.
Auto off：set idle time to power off the device.
Feature:
120 degree ultra wide angle lens.
1920x1080P FULL HD high quality resolution.
Advanced H.264 video compression technology.
5 mega pixels.
4X digital zoom, ranges from 12cm to limitless distance.
1.5 inch high resolution LCD, can watching while shooting.
Matching LED for supplementing light at night.
Support HDMI high quality video transmission.
5 resolution forms can be changed for video recording.
30/60 frames per second for smooth video flow.
Equipped with special auto suction cup holder. Conveniently fix and use.
Built-in GPS, record traffic speed, driving track. (Optional)
G-sensor to keep records of sensor data and real-time display on the player. (Optional)
Powerful document protection, even in the recording process, the occurrence of sudden power outages, machine damage, etc., video files will be intact.
Seamless continuous recording, will not miss any data.
